- 6 There will be FIVE types of TIME CONTROL used on this event as follows: -

NTC – NEUTRAL TIME CONTROL

This will be the end of a Non Competitive **Quiet** Section (NEUTRAL) and you will not be permitted to make up time without penalty. You may wait inside the control area for your time. No time penalty for late arrival other than being OTL (Fail)

STC – STANDARD TIME CONTROL

This is a Competitive Time Control, timed to the minute. You may wait inside the control area for your time and you are able to make up time subject to the $\frac{3}{4}$ rule. The time given will be to the previous whole minute, on presentation of your Time Card

IRTC – INTERMEDIATE REGULARITY TIME CONTROL

This will be a secret location some where within the Regularity Section where you will be required to stop for a time. The time given will be to the SECOND. In the event that you arrive early at an IRTC you may wait for your correct minute without penalty. H.53.

RTC – REGULARITY TIME CONTROL

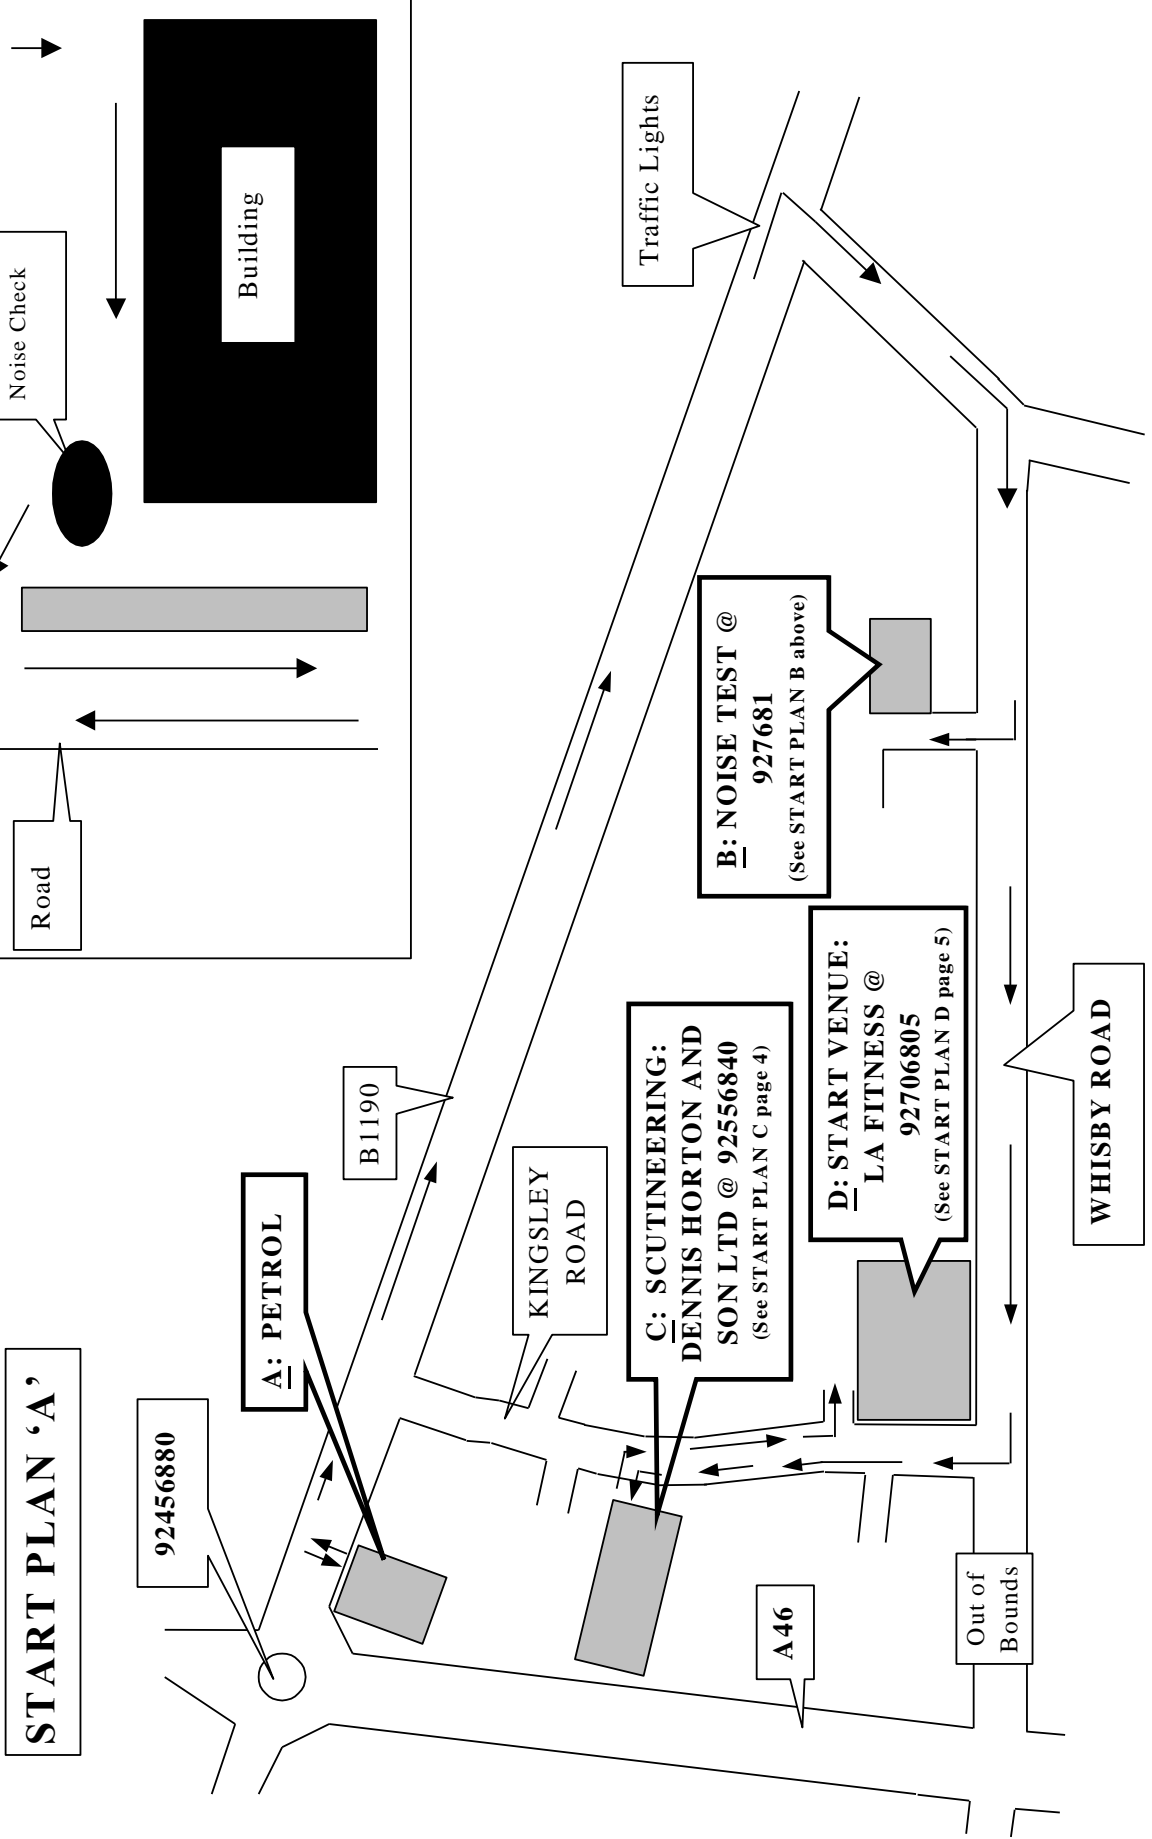

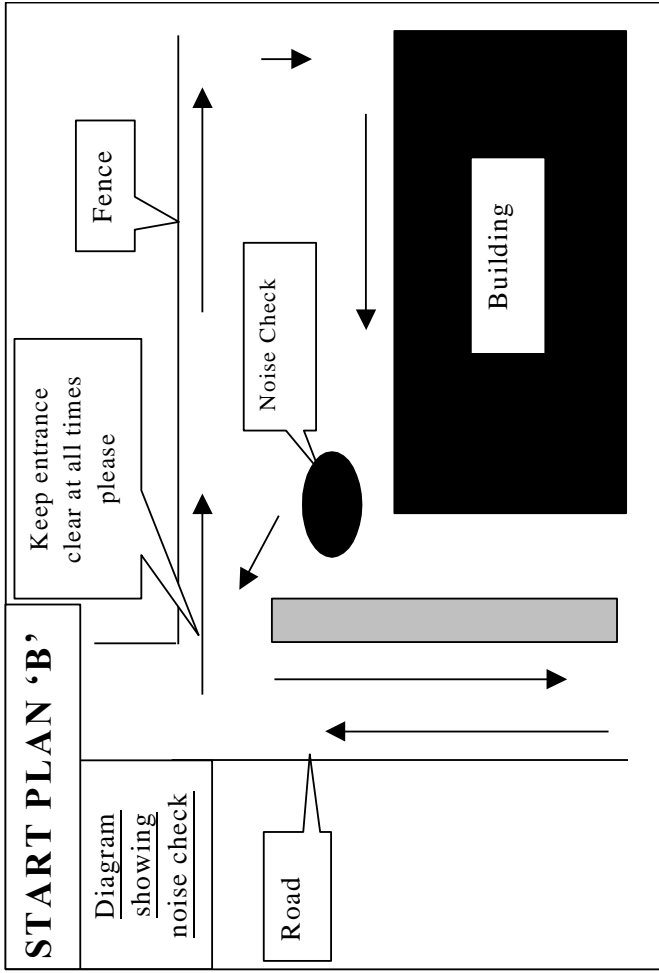

This will be at the end of a Regularity Section, which will contain at least one IRTC control. Timing will be to the previous whole minute. You may wait in the control area for your correct time. You must NOT reduce your lateness at an RTC. You must wait for your correct time. THESE ARE QUIET SECTIONS

TTC – TRANSPORT TIME CONTROL

A Transport Section will be timed to the minute, the time given will be to the previous whole minute and you may wait in the control for your time. You are able to make up time, subject to the $\frac{3}{4}$ rule, or as specified on the Route Card. No lateness penalty other than OTL or missed control.

- 7 TIES. H.90 will apply; if a tie still exists then it will be resolved by lowest engine c.c.
- 8 Information for Navigators – There will be separate TIME CARDS and PASSAGE CHECK SHEETS, signatures are required at each TIME CONTROL, on both sheets unless there are no PASSAGE CONTROLS on that section, i.e. at the end of a neutral or transport section.
